

# Master Legal To-Do & Deliverables List

△ **NOT LEGAL ADVICE.** An inventor-prepared, exhaustive master checklist of every legal, tax, and compliance action a licensed attorney (and, where marked **(CPA)**, a tax advisor) should take across **100% of the platform — Get Goods Gratis (Free)**, an 18+ closed-loop retail / e-commerce rewards marketplace (website / PWA + iOS / Android). It consolidates **every counsel suggestion already raised anywhere in this packet** and adds a full set of items I recommend that the packet did not yet call out (each of those marked **(added)**). Items counsel should **draft or produce** as a work-product are gathered in Part B.

**Governing rule for the entire site:** *nothing money-, credit-, minor-, chance-, biometric-, or auto-charge-related goes live until counsel clears its named switch.* Every risky capability already ships **OFF** behind a feature flag and/or a \*\_LEGAL\_SIGNOFF boolean; this list is the map of what to clear. Prepared 2026-09-14. This master supersedes LAWYER-TODO-FULL-SITE.

**Legend:** - [ ] an open action · **(added)** = my recommendation, not previously in the packet · **(CPA)** = needs the tax advisor · **(switch)** = gated by a named admin flag · → **DOC** = the packet doc that supports the item · sections map 1:1 to the packet's category folders.
