

Founding / Tier 1 Advertising Offer — Canonical Summary & Document Index

This is the one-page canonical summary of the current founding / Tier 1 advertising offer, plus a pointer to the authoritative documents. If any detail elsewhere conflicts with this page, follow `TIER1-OFFER.md` and `FOUNDING-OFFER-LEGAL-REVIEW.md`.

The offer, in brief

- **Founding Advertiser (Tier 1)** — a limited introductory advertising + membership offer on a closed-loop, 18+ retail rewards / survey-rewards platform.
- **200,000 founding-advertiser slots.** Open until 200,000 founding advertisers enroll, then it closes and becomes the standard Tier 1 offer at **+30% (\$16,900/year)**. Founders keep their founding price for life.
- **Price — \$13,000/year**, billed as **\$1,000 every 4 weeks across 13 cycles**, for a **4-year package**.
- **Advertising — 200,000 impressions/year** across the between-survey and social surfaces, priority placement, delivered **capacity-paced** (guaranteed by amount, not by date; advertising delivered, never revenue/ROI).
- **Category exclusivity** — each founder is the only founding advertiser in their category.
- **Included** — premium membership, AI campaign manager + concierge support, AI creative, A/B testing, analytics, sentiment insights, and a **\$2,000 Site Cash grant** (non-cashable store credit, released over the term).
- **Every feature at its maximum (Tier 3) capability level, free** — on top of the full add-on catalog above, a founding advertiser resolves to the **Tier 3 / Unlimited** capability level for every tier-gated feature (maximum AI Creative Suite generations, all ad formats, unlimited concurrent experiments, multivariate testing, the full autonomy ceiling, predictive learning, image/video/brand-kit/localization/auto-refresh), at no extra cost (`FOUNDING_MAX_SCALE_ENABLED`, default ON). This maxes feature **capability**, not delivered ad-impression **volume** — the founding impression allotment above is unchanged.
- **Membership survey perk** — keep **100% of your own** third-party survey earnings for 4 years as Site Cash (non-cashable), a better **share** with **no cap** and **no promised amount**, not a return of the price; reverts to the standard 75% share afterward or for post-close members.
- **Two launch gates** — full delivery is gated on **200,000 founding advertisers AND a separate 200,000 premium-user pool** (see `ADVERTISER-FUNDED-LAUNCH.md`).
- **Funds model — presale** (non-refundable, disclosed); escrow/hybrid supported by the same code.

Nobody owes anything in any tier. Alongside the paid founding path there are participation paths — a no-upfront path and a free earn-to-unlock path (`FREE-EARN-TO-UNLOCK-TIER-SPEC.md`) — which are delivery schedules, never debts: stop anytime, owe nothing, no penalty.

The authoritative documents

- `ADVERTISER-FUNDED-LAUNCH.md` — the strategy + what's coded, including the separate 200,000-user pool.
- `FREE-EARN-TO-UNLOCK-TIER-SPEC.md` — the free/earn-to-unlock + no-upfront paths, weighted referrals, the participation term.

Compliance line that governs all of the above

Nothing launches and no money is collected until qualified counsel reviews the offer and every line of member-facing copy. Held throughout: no guaranteed return, no recoup / return-of-capital, no stated earnings amount, no promised delivery date or ROI (delivery is capacity-paced, by amount), no consumer-credit/debt, no mandatory recruitment (referrals accelerate but are never required), and the contact-invite is user-sent from their own device (never a server-side blast). Site Cash — including the \$2,000 grant — is closed-loop and non-cashable. *Not legal advice.*
