

Privacy Policy

Effective date: July 28, 2026 · Version 2026-07-28

This Privacy Policy explains how GamerGain (“GamerGain,” “we,” “us”) collects, uses, shares, and protects personal information when you use our website, progressive web app, and mobile applications (the “Service”). It also describes the choices and rights you have over your information.

This is a plain-language template describing current practice. It is not legal advice. Have counsel confirm it against the privacy laws that apply to you (for example GDPR, UK GDPR, CCPA/CPRA, and other regional laws) before you rely on it.

1. Who we are

GamerGain operates a play-to-earn platform where users complete activities to earn points and use those points in a store and marketplace. The data controller is GamerGain; contact details are in Section 12.

2. Information we collect

- **Account information** you provide: name or display name, email, password (stored only as a secure hash), and country or region.
- **Transaction information:** points earned and spent, orders, and, where card payments are enabled, limited payment metadata processed by our payment processor (we do not store full card numbers).
- **Activity and behavioral information:** pages viewed, clicks and interactions, survey responses and the timing/patterns of those responses (used to assess answer quality and detect fraud), device and browser type, approximate location derived from your IP address (used to set your country, currency, language, and flag), and app performance data.
- **Communications:** messages you send to support or through in-Service assistants.
- **Third-party activity data:** completion signals from survey and offer providers.

3. How we use information

We use information to: operate your account and the points economy; provide the store, marketplace, and earning activities; localize the Service (currency, language, and country) based on your location; personalize recommendations and assistant interactions; generate and improve original catalog content; test proposed changes before releasing them; detect and prevent fraud and abuse; provide support; comply with legal, tax, and regulatory obligations; and maintain the security and integrity of the Service.

4. Automated processing and AI

We use automated systems and artificial intelligence to personalize content, power an in-Service assistant, evaluate survey-answer quality, and optimize non-sensitive settings. These systems inform how the Service is presented to you. Decisions with legal or similarly

significant effects, and any changes to money-related or compliance-related controls, remain subject to human oversight. You can contact us to ask about automated processing that affects you.

5. Behavioral recording and your control over it

To improve the Service, we record in-Service behavioral events (such as clicks and navigation). You can **opt out of behavioral recording** in your privacy settings; when you opt out, behavioral capture stops on your next load. Opting out does not stop essential processing needed to run your account and transactions.

6. How we share information

We share information with: **service providers** (hosting, database, payment processing, email/SMS, analytics, AI/LLM and image-generation providers, and IP-geolocation and exchange-rate providers) that process data on our behalf under contract; **third-party earning providers** as needed to credit your activity; **affiliate retailers** only to the extent you follow an outbound affiliate or search link (we do not send them your account data); and **authorities or others** where required by law, to enforce our Terms, or to protect rights, safety, and the integrity of the Service. We do **not** sell your personal information for money. Where “sharing” for cross-context advertising is regulated, you may opt out as described in Section 8.

7. International transfers

We may process and store information in countries other than yours. Where required, we use appropriate safeguards (such as standard contractual clauses) for cross-border transfers.

8. Your rights and choices

Depending on where you live, you may have rights to access, correct, delete, port, or restrict your personal information, to object to certain processing, and to opt out of targeted advertising or certain sharing. In the Service you can: - **Download your data** (a machine-readable export that includes your behavioral, AI-profile, and marketplace data); - **Delete your account** (this anonymizes your profile and erases behavioral data, subject to records we must retain by law); - **Opt out of behavioral recording** as described above. To exercise other rights, contact us using Section 12. We will not discriminate against you for exercising your rights.

9. Data retention

We keep personal information for as long as your account is active and as needed to provide the Service, then for the period required to meet legal, tax, accounting, dispute-resolution, and fraud-prevention obligations, after which we delete or anonymize it.

10. Security

We use administrative, technical, and organizational measures designed to protect your information, including hashing of passwords and access controls. No system is perfectly secure; we cannot

guarantee absolute security.

11. Children

The Service is for users **18 and older**. We do not knowingly collect personal information from anyone under 18. If we learn we have, we will delete it.

12. Contact and complaints

For privacy questions or to exercise your rights: **[insert privacy contact email]**. If you are in a region with a supervisory authority, you may also have the right to lodge a complaint with it.

13. Changes

We may update this Policy. We will change the effective date above and, for material changes, take reasonable steps to notify you. Continued use after changes take effect constitutes acceptance.
